

How Go-Givers contributes to the Sustainable Schools Framework

What is a sustainable school?

A sustainable school prepares young people for a lifetime of sustainable living, through its teaching, fabric and day-to-day practices.

It is guided by a **commitment to care**:

- Care for oneself (our health and well-being);
- Care for each other (across cultures, distances and generations); and
- Care for the environment (both locally and globally).

'Doorways' or sustainability themes

The doorways are entry points, or places where schools can establish or develop their sustainability practices. Each of the doorways draws its inspiration from a range of national priorities around sustainable development.

The first of the two tables below links Go-Givers resources to the doorways, and the second links to the commitment to care.

KS2	Doorway	KS1
Climate and Farming The Food Shortage Fairtrade: Have a Banana What Kind of Farming?	Food and drink
