

## List of all Key Stage 1 Lessons

This document lists all our KS1 lessons showing what each lesson contains and which themes it addresses. If you are the **administrator of your School Subscription** it may be useful to print this list and distribute it to staff so they can indicate which lessons they would like you to add to the School Subscription for their class.

We have colour coded the lessons on this table, instead of assigning them to year groups, to indicate the level of complexity/challenge as experience has shown us that different cohorts of children work at various levels depending on previous SMSC learning. Therefore **Green** indicates the least challenge, **orange** moderate challenge and **red** the uppermost level of challenge for KS1 children. Red lessons may be suitable for Years 3 & 4 in KS2.
